EDUCATION

| | |
|--|--|
| Macau University of Science and Technology <i>Ph.D. of Earth and Planetary Science</i> | Macao, China 09/2020 -Present |
| University of Chinese Academy of Sciences, National Astronomical Observatories of China <i>Master of Astrophysics</i> | Beijing, China 09/2016 - 06/2020 |
| - Awards: Honorary title of merit students for the academic Year 2017-2018 (top 5%) | |
| Huazhong Agricultural University <i>Bachelor of Science in Mathematics, major in Information and Computing Science</i> | Wuhan, China 09/2012 - 06/2016 |
| - Awards: Honorary title of study activist for the academic Year 2013-2014 (top 2%), 2 nd Prize for Outstanding Academic Achievement in the First Semester for the academic Year 2014-2015 (top 5%) | |

PROFESSIONAL EXPERIENCE & LEADERSHIP ACTIVITIES

| | |
|---|------------------------------------|
| Researched the Temperature Profile of Titan's Upper Atmosphere <i>Team Leader</i> | <i>Beijing</i> 06/2017 |
| Advisor: Jun Cui (Professor of School of Astronomy & Space Science, University of Chinese Academy of Sciences) -Calculated the average temperature profile corresponding to a given the density profile of nitrogen based on hydro-static equilibrium. | |
| Observed the Earth by the Radial Velocity Method <i>Team Leader</i> | <i>Beijing</i> 09/2016- 10/2016 |
| Advisor: Jifeng Liu (Professor of School of Astronomy&Space Science, University of Chinese Academy of Sciences) -Analyzed the change in the position vector and the radial velocity of the eight planets in the solar system to the sun between 1945 and 2145 and the observation accuracy of the Earth by assuming that the observer observes the solar system at a distance of 10 pc and an angle of 45 degrees between the ecliptic. | |
| Investigated the Influence of Korean Dramas on the College Students in Wuhan <i>Team leader</i> | <i>Wuhan</i> 03/2015- 05/2015 |
| Advisor: Mingyue Guo (Lecturer of Mathematics and Statistics Department, HZAU) - Attended National Undergraduate Market Research and Analysis Contest; - Investigated the influence of Korean dramas on the values, life concept and consumption concept of students through questionnaires. | |
| Researched the Sound Principle of the Whistle and Improve the Configuration to Maximize its Sound <i>Team leader</i> | <i>Wuhan</i> 10/2014-11/2014 |
| -Attended 2014 Certificate Authority Cup International MATHEMATICAL CONTEST IN MODELING; -Researched the sound dynamics in the whistle according to the aerodynamics theory and the theory of vortex and improved the structure of the whistle to maximize its sound by using MATLAB. | |
| Researched the Rainfall and Temperature Regularity in Wuhan City <i>Team Member</i> | <i>Wuhan</i> 06/2014- 01/2015 |
| Advisor: Jinming Fu (Associated Professor of Mathematics and Statistics Department, HZAU) -Established the mathematical model by using linear regression analysis, correlation analysis, wavelet analysis; -Analyzed the interaction between rainfall and temperature in Wuhan by using the mathematical model. | |

1. The 4th International Conference on Lunar and Deep Space Exploration **Poster** *Zhuhai, 07/2019*
2. Attended USTC's first Planetary Sciences summer school *Hefei, 07/2019*
3. The 18th National Symposium on Terrestrial and Solar Physics **Presentation** *Xinning, 05/2019*
4. Symposium on Solar Activity and Energy Transfer Processes in Space Environments **Presentation** *Zhuhai, 11/2018*
5. Annual Meeting of Chinese Geoscience Union **Poster** *Beijing, 10/2018*
6. The 4th International Space Weather Conference **Member** *Beijing, 08/2017*
7. Attended Five-hundred-meter Aperture Spherical radio Telescope (FAST) summer school *Guiyang, 07/2016*
